- To analyze through financial ratios the performance of a company
- To analyze the most common decisions relating to money supply and liabilities in the short term

DESCRIPTION OF CONTENTS: PROGRAMME

- Financial Statements: Balance Sheet and Profit and Loss.
- Financial Statements: Cash Flow Statement.
- Financial ratios
- Operative finance
- Investments appraisal

LEARNING ACTIVITIES AND METHODOLOGY

The classes combine the introduction of theoretical concepts and the solution of practical exercises. For a deeper understanding of the subject we will jointly work and analyze some business cases of leading companies. We target that students participate in class through the different open discussions and are able to contribute and enrich the class with their personal experiences. Students will have to solve different exercises and business cases. These will be corrected and discussed during the course of the class.

ASSESSMENT SYSTEM

Students will be evaluated based on the following criteria:

ORDINARY CALL:

- Individual participation: 40%
- Exam: 60%

EXTRAORDINARY CALL:**Alternative 1:**

- Individual participation: 40%
- Exam: 60%

Alternative 2:

- Final exam (100%).

Students can choose the alternative that benefits them the most.

% end-of-term-examination:	60
% of continuous assessment (assignments, laboratory, practicals...):	40
