LEARNING ACTIVITIES AND METHODOLOGY

The students knowledge competencies and aptitudes will be acquire through masterly lessons, by problems solving handed to the TA and reviewed during the practical lessons and by the students problems solving in the blackboard during the practical lessons. Although the skills will be worked out by the students individually in the week before each practical lesson.

ASSESSMENT SYSTEM

Grading will be based on:

Final grade will be base in weighted average of the final exam and course grade:

- Final exam: 40% of the final grade

It consists of 40% of practical questions and 60% of theoretical ones.

- Quizzes (theoretical and practical) and course participation: 60% of the final grade

20% Essays, mainly the final one EEI3;

40% Quizzes (practical and theoretical)

- Extra point 5 %: We will also give a bonus of 5% on the final grade for those who have a good participation in both theoretical and practical classes.

Class participation and Integrity: Attendance and class participation are encouraged. Repeated absences from class, failure to actively and regularly participate, or disruptive behavior will result in lower or no credit in this category. Plagiarism or other forms of academic dishonesty will not be tolerated and may result in a bad grade for the continuous evaluation.

The UC3M students in exchange or internship live (or similar situation) may opt for the 80-20 system: 80% final exam grade plus 20% individual course paper if the lecturer of his group authorize this alternative evaluation system. The topic of these essay should be authorize by the lecturer in advance.

The retake exam (convocatoria extraordinaria) in June will allow to pass the course with the 100% of the grade base in the exam grade or the weighted average of the continuous evaluation grade (60%) plus the final exam grade (40%).

% end-of-term-examination: 40

% of continuous assessment (assignments, laboratory, practicals...): 60
