LEARNING ACTIVITIES AND METHODOLOGY
The course is organised in theoretical and practical sessions. Theoretical sessions are designed to provide the basic concepts needed to solve the accounting problems analysed. Practical sessions are used to discuss exercises and practical cases where basic theoretical concepts need to be applied. The weekly programme states when theoretical sessions take place and when exercises and practical cases are discussed in the classroom. Students should revise the concepts analysed in every theoretical session and solve the proposed exercises and/or practical cases before they are discussed in the classroom.

ASSESSMENT SYSTEM
Assessment will be based on:
- tasks and class participation (both in theoretical and practical sessions): 20%.
- mid-term exam: 20%.
- final exam: 60% (a minimum of 4 is required before considering the average with the continuous assessment grade).
% end-of-term-examination: 60
% of continuous assessment (assignments, laboratory, practicals...): 40
