Learning Objectives

- Understand analytically the importance of taking optimal operational marketing decisions.
- Develop your conceptual, analytical, and decision-making skills.

DESCRIPTION OF CONTENTS: PROGRAMME

Optimal planning of the marketing mix and budget allocation.
"Decision Support Systems (DSS)" in marketing.
Decision Theory.
Linear optimization techniques and non-linear.
Decision under uncertainty.
Optimization in dynamic context.
Application to problems and marketing models.
Simulation.

LEARNING ACTIVITIES AND METHODOLOGY

Classes may involve lectures, small group exercises, case analyses and discussions. The lectures will serve to establish the conceptual foundations. Practical classes are designed so that students can develop skills and abilities required properly established.

Student contributions are an important part of the course. Students are expected to read assigned materials for each class; attend class, participate and contribute to discussions.

ASSESSMENT SYSTEM

Your final grade will be assigned based on:
Participation in-class discussion, quizzes and cases studies: 60%
Final exam: 40%

In order to pass the subject, students need to meet the minimum passing score of 4 points (out of a possible 10) in the final exam. Students that do not meet the minimum passing grade should retake the subject. If the resit is taken, the above grade criteria also apply.

% end-of-term-examination: 40
% of continuous assessment (assignments, laboratory, practicals...): 60
