#### **LEARNING ACTIVITIES AND METHODOLOGY**

The theoretical part is specified in the monitoring of master classes taught by teachers, which will promote classroom discussion about the contents of the program, and develop the listed specific skills. The aim of the discussions is to get the students to be aware of these interactions (2 ECTS)

The practical part of the course will be addressed to familiarize the students with the main sources of information on tourism in order to promote their autonomous search capability, and the development of reports to collect and summarize different aspects of the tourist activity. (2 ECTS)

The individual student work: the study of the subject, attending tutorials, consulting texts from the library, and the exams (2 ECTS)

#### **ASSESSMENT SYSTEM**

The assessment will consider the students achievement during the course through a continuous assessment that will account for 50% of the final grade, and it will include an exam at the end of the semester that will comprise the remaining 50% of the final grade. The evaluation will be based on both the student input on various sections: comprehensive review, self-assessment exercises, performance and practical exercises exposition, and class attendance.

**% end-of-term-examination:** 50

**% of continuous assessment (assigments, laboratory, practicals...):** 50
