

Academic Year: (2018 / 2019)

Review date: 15-01-2019

Department assigned to the subject: Economics Department

Coordinating teacher: CACERES DELPIANO, JULIO

Type: Master Final Project ECTS Credits : 6.0

Year : 1 Semester : 2

OBJECTIVES

COMPETENCES

- To have and understand knowledge that provides a basis or opportunity to be original in the development and / or application of ideas, often in a research context
- Students must be able to apply their knowledge and problem solving skills in new or unfamiliar environments within broader (or multidisciplinary) contexts related to their area of study
- The students must be able to integrate knowledge and face the complexity of making judgments from information that, incomplete or limited, include reflections on social and ethical responsibilities linked to the application of their knowledge and judgments
- The students must be able to know how to communicate their conclusions and the generated knowledge and reasons that support them to the public
- Que los estudiantes posean las habilidades de aprendizaje que les permitan continuar estudiando de un modo que habrá de ser en gran medida autodirigido o autónomo.
- Interpretar datos económicos
- Aplicar el análisis económico
- Explicar argumentos económicos complejos tanto por vía escrita como oral.
- Demostrar el conocimiento y la comprensión de los temas éticos y legales asociados con la investigación en ciencias sociales.
- Conocer de forma extensa las principales fuentes de información y de datos económicos.
- Aplicar programas para la organización, presentación y análisis de datos económicos.
- Adquirir las habilidades de aprendizaje suficientes para continuar estudiando de una manera autónoma en el campo de la economía.
- Conocer los principios básicos del análisis económico y la organización industrial
- Identificar un problema económico sectorial, resumir el estado de la cuestión y proponer avances en su estudio.

RESULTADOS DEL APRENDIZAJE

El objetivo del trabajo es iniciar al estudiante en la elaboración de textos e informes profesionales, aplicando de manera autónoma el análisis cuantitativo y argumentando sus conclusiones en resultados científicos

DESCRIPTION OF CONTENTS: PROGRAMME

The Master's thesis (TFM) aims to carry out an individual work under the direction of an academic tutor.

The student must carry out an original research project in which he applies or develops the knowledge and skills acquired in the Master.

The presentation and defense of thesis will be public

LEARNING ACTIVITIES AND METHODOLOGY

FORMATION ACTIVITIES

Tutorials (20 hours)

Individual student work (160 hours)

TEACHING METHODOLOGIES

Preparation of individual or group reports

ASSESSMENT SYSTEM

The University uses the Turnitin Feedback Studio program within the Aula Global for the delivery of student work. This program compares the originality of the work delivered by each student with millions of electronic resources and detects those parts of the text that are copied and pasted. If the student has correctly made the appointment and the bibliographic reference of the documents he uses as a source, Turnitin will not mark it as plagiarism.
