LEARNING ACTIVITIES AND METHODOLOGY

Formation activities

- Theoretical classes
- Theoretical and practical classes
- Tutorias
- Individual work of the tutored student

Teaching Methodologies

- Presentations with support of computer and audiovisual media, in which the main concepts of the subject are developed and the bibliography is provided to complement the students' learning.
- Critical reading of texts recommended by the subject teacher: Press articles, reports, manuals and/or academic articles, either for further discussion in class, or to expand and consolidate the knowledge of the subject.
- Resolution of practical cases, problems, etc. raised by the teacher individually or in groups.
- Presentations and discussion in class -under the teacher's moderation- of topics related to the content of the subject, as well as practical cases.
- Elaboration of work and reports individually or in groups

ASSESSMENT SYSTEM

Participation in class: 10%
Individual or group work carried out during the course: 90%
Final exam: 0%

% end-of-term-examination: 0
% of continuous assessment (assignments, laboratory, practicals...): 100
