

Academic Year: (2019 / 2020)

Review date: 28-04-2020

Department assigned to the subject: Humanities: Philosophy, Language, Literature Theory Department

Coordinating teacher: SUAREZ HERNANDEZ, ARIANA

Type: Basic Core ECTS Credits : 3.0

Year : 1 Semester : 1

Branch of knowledge: Social Sciences and Law

REQUIREMENTS (SUBJECTS THAT ARE ASSUMED TO BE KNOWN)

If the subject is studied in English (Writing and Communication Skills) the student must be proficient in spoken and written English.

OBJECTIVES

By the end of this subject, students will be able to have:

1. Awareness of the wider multidisciplinary context of engineering
2. An understanding of design methodologies, and an ability to use them
3. The ability to select and use appropriate equipment, tools and methods
4. Function effectively as an individual and as a member of a team
5. Use diverse methods to communicate effectively with the engineering community and with society at large
6. Recognise the need for, and have the ability to engage in independent, life-long learning

DESCRIPTION OF CONTENTS: PROGRAMME

The program is divided into two main parts. The first deals with the matters related to written expression and the second with the specific aspects of spoken expression. The work method will include providing students with a theoretical basis which is essential for understanding the work expected from them, but will focus primarily on applying this knowledge to practical exercises. Therefore, the program must be carried out in the form of seminars and work sessions in relatively small groups, which allow a quick feedback and follow-up from the teacher. The student is expected to play an active role in the learning process, in order to effectively verify his or her progress and achievement.

1. WRITING SKILLS

- Planning, designing and organizing the content.
- Correct use of the language: precision, synthesis and correctness.
- Effective structure of an academic-scientific text: introduction, body and conclusion.
- Correct argumentative structure and coherence in the discourse.
- Contact with creative writing.

2. SPEAKING SKILLS

- Elements of rhetoric and oratory for an effective presentation.
- Non-verbal communication and body language.
- Formal aspects of presentations. Effective use of technology for oral presentations.
- Dialogue and interviews.
- Oral expression in specific contexts: group presentations, participation in debates.
- Organization of the oral presentation and solving unforeseen situations.

LEARNING ACTIVITIES AND METHODOLOGY

Learning activities

1. Techniques for generating, prioritizing and organizing ideas.
2. Rules for construction of correct sentences using appropriate and precise vocabulary.
3. Explanation of the basic principles of a well-constructed text. Drafting an academic-scientific paper.
4. Exercises with pronunciation, intonation and other aspects related to oratory and non-verbal communication.
5. Individual and group presentations.
6. Interviews and improvisation from a given situation.

Skills

1. Choose a topic and organize ideas adequately.
2. Write logically ordered sentences with an appropriate length. Build vocabulary. Be familiar with standard language.
3. Divide a text into paragraphs correctly.
4. Ability to write coherent texts.
5. Use correct intonation and take advantage of expressive possibilities.
6. Acquaint oneself with this activity. Learn to give constructive peer criticism to group presentations.
7. Choose a topic, organize the ideas adequately, and present it fluidly.
8. Acquire fluency in unplanned situations. Reach a certain degree of ease in public speaking.

Methodology

1. Brainstorming. Conceptual Mapping. Outlines.
2. Error correction exercises. Dictionary exercises.
3. Paragraph dividing exercises.
4. Analysis and commentary of different types of texts
5. Pronunciation exercises. Exercises and activities with intonation.
6. Mock group presentations. Constructive criticism from classmates and teacher correction.
7. Mock individual presentations. Constructive criticism from classmates and teacher correction.
8. Simple role-playing.

Tutorials

Individual and/or group tutorials.

ASSESSMENT SYSTEM

Writing and Communication Skills is an ongoing assessment subject. To ensure the smooth development of the classes, an optimal learning environment and respect for group dynamics, class attendance is essential. In order to pass the class, students must attend at least 85% of scheduled classes. Attendance alone does not guarantee a passing grade. In this sense, the student must complete satisfactorily the following assignments included in the ongoing assessment:

1. Exercises and practical activities to be completed both in and outside class.
2. Written essay to be turned in.
3. Oral presentation done in class.

Any plagiarism will mean the fail of the course.

MAKING UP THE SUBJECT

There is only one opportunity per academic year to pass the subject. If the student has not passed the course (according to the parameters explained above), the requirements for making up the subject in the same academic year are the following:

1. Completing an assignment based on the additional bibliography.
2. Making an oral presentation and/or completing a written assignment where the student demonstrates his or her knowledge of the basic bibliography.
3. The student must have attended a minimum of 50% of the classes.

The make-up process will be carried out according to the instructions of the professor of the course, who may authorize turning in the work by electronic means.

% end-of-term-examination:	0
% of continuous assessment (assignments, laboratory, practicals...):	100
