LEARNING ACTIVITIES AND METHODOLOGY

Monitoring of progress, contents and quality of study and research of the student by a Final Project tutor who will be named and whose specialisation will be appropriate to the area the student has chosen as the subject of his/her project. For the choice of subject, the subject coordinator will guide and assist the student where necessary.

In addition to consultation tutorials with each tutor, several tutoring sessions with the group of students will be scheduled for both the development of work and the preparation of the presentation.

In the Aula Global, which is designed for the Final Project, a support bibliography and guidelines for the searching for resources, guidelines for the development of essential parts of the project, recommendations for citing the bibliography, time management, etc. will be published.

ASSESSMENT SYSTEM

The University uses the Turnitin Feedback Studio program within the Aula Global for the delivery of student work. This program compares the originality of the work delivered by each student with millions of electronic resources and detects those parts of the text that are copied and pasted. If the student has correctly made the appointment and the bibliographic reference of the documents he uses as a source, Turnitin will not mark it as plagiarism.

% end-of-term-examination:	100
