**LEARNING ACTIVITIES AND METHODOLOGY**

The course will be taught combining the system of lectures, discussions and activities on the more controversial topics of the program.

In the theoretical explanations the basics concepts of each item will be developed. Required materials (book chapters and academic articles) that the/ as students must work before each session will be available in Aula Global. During the sessions these texts will be discussed, in the light of the teacher's explanations. Students must present a brief oral work linked to some of the topics and discussions and a final research paper.

**ASSESSMENT SYSTEM**

During the course, students will choose between this options:

- 1) Brief essays on the issues of the program.
- 3) Development of a written final work of individual character.

Attendance and participation in discussion improve the note until 10%.

The students who fail this system, must present a new work of individual character in the extraordinary call. This work will have a weight of the 100% of the evaluation.

<b>% end-of-term-examination:</b>	0
<b>% of continuous assessment (assignments, laboratory, practicals...):</b>	100
