 - Definition and scope.
 - Fingerprints, method, identification and their relevance for the police and forensics.
 -
7. IDENTIFICATION II: DNA,
 - method,
 - identification and their relevance for the police and forensics.
 - Legality.

LEARNING ACTIVITIES AND METHODOLOGY

ACTIVITIES AND METHODOLOGY:

- Classes of theory - explanation of all concepts necessary for the subject, uploading all necessary materials and bibliography in virtual Aula Global.
- Classes of practices - case study (analysis and resolution)
- Mixed classes - analysis of case-law, seminars with practitioners;
- Team work - debates about peculiar aspects of the subject matter;
- Different expert will go to the class
- Individual work - preparation to classes of practice, elaboration of research paper.

TUTORSHIPS:

Weekly time schedule is provided in virtual Aula Global. Additionally, doubts can be resolved by e-mail.

ASSESSMENT SYSTEM

| | |
|---|-----|
| % end-of-term-examination: | 0 |
| % of continuous assessment (assignments, laboratory, practicals...): | 100 |

Ordinary call:

1. Attendance and participation in classes - up to 2 points
2. Case practice: up to 2 points
3. Research paper: up to 6 points.

Extraordinary call:

- a. For the students that have followed the process of continuous evaluation, the exam will have the value of 50 % to which the grade of the continuous evaluation will be added (valued with the maximum of 5 points).
- b. If the student has not followed the process of continuous evaluation, the value of the exam will be 100% of the total qualification of the subject.
