Year : 1 Semester : 2

REQUIREMENTS (SUBJECTS THAT ARE ASSUMED TO BE KNOWN)

Bachelor Degree in Law

- Criminal law: general and special part

OBJECTIVES

Students to achieve sufficient capacity to understand the elements of this crime.

Students detect the main problems they will encounter regardless of the type of crime, the most appropriate in each case, and research strategies to know and manage the technical means with which to solve complex cases.

That the students can assume different procedural roles, prosecution or defense, strength and defend their arguments in both cases.

Students acquire the proper training and knowledge for development related to the exercise of criminal legal professions practice in this area.

That the students can identify and solve with ease the particular problems of the various criminal types thanks to a solid methodological training.

Students develop the skills necessary to assist detained and charged that require a lawyer.

They may make findings consistent with a criminal investigation and forensic evidence to solve the problems arising during the criminal proceedings related to gender violence

Know communicate clearly and succinctly the hypotheses that can be formulated into the scene of these crimes, in research, the methodology and the practical implications of the police investigation and in his court case or the prosecution.
