Legal theory of crime

OBJECTIVES

This subject has the objectives of the acquisition by the student, the following powers:

- 1- Knowledge of criminal protection of human life independent and dependent or prenatal, health and bodily integrity.
- 2- Knowledge of criminal protection of freedom, moral integrity and sexual freedom.
- 3- Knowledge of criminal protection of privacy, the right to self-image, the inviolability of the home and honor.
- 4- Knowledge of the criminal protection of the rights of workers and foreign citizens.
- 5- Knowledge of the criminal protection of land planning, heritage and the environment.
- 6- Knowledge of the criminal protection of collective security.
- 7- knowledge of the crimes of falsehoods.
- 8- Knowledge of the criminal protection of the Administration of Justice, the Constitution, public order and the international community.
9. Ability to solve practical cases related to previous theoretical knowledge.
- 10- As a result of the above knowledge, critical capacity regarding criminal repression and effectiveness of it as a way of organizing living together in a social and democratic rule of law.

DESCRIPTION OF CONTENTS: PROGRAMME

The program includes the study of offenses in the special part of the corresponding Penal Code to individuals and society: the killing and its forms, abortion, injuries, crimes against freedom, crimes against moral integrity, crimes against sexual freedom, dereliction of duty relief, crimes against privacy, self-image and address, honor crimes, crimes against the right of workers, drug trafficking offenses, road safety offenses, crimes against the Constitution, crimes against public order.

LEARNING ACTIVITIES AND METHODOLOGY

The contents are organized through two types of classes, theoretical and practical.

In the theoretical classes the lessons of the program, which regularly individualized tutoring in the days and hours established by each teacher will be organized will be explained.

In the practical classes they will be discussed and resolved cases corresponding practical lessons already explained, that will support and complement the theoretical contents.

In order to maximize both the theoretical classes and practices, it is desirable that the student previously studied by a manual lessons for each topic prior to the explanation of it. It must be an updated manual since in July 2015 came into force a comprehensive reform of the Penal Code which affects very noticeable to the subject at hand manner.

Acquisition of theoretical knowledge (4 ETCS).

As in the theoretical, attendance to practical classes involves, prior to the class character, having read and studied practical cases provided for that week and if any resolved. Acquisition of skills (2 ECTS).

ASSESSMENT SYSTEM

The evaluation system will be developed, on the one hand through continuous evaluation (which constitute 40% of the final grade) and a final exam (which represent 60% of the final grade).

Continuous evaluation will consist of two parts:

1. An examination type test with 20 questions that represent 20% of the final note.
2. A case that will represent 20% of the final note.

The final exam will be theoretical and represent 60% of the note. For the mark obtained in the continuous evaluation can be added to the final exam, students will have obtained in the latter, at least 2.5 points on 6 points; in case of obtaining a lower note, the note of the continuous evaluation will not add to the final exam and the subject will be considered suspended.

Teachers may examine orally, and in this case is provided for several dates for the examination, in the ordinary call, as in the extraordinary.

In the extraordinary call (June) examination will be theoretical (60%) and practical (40%).

% end-of-term-examination:	60
% of continuous assessment (assignments, laboratory, practicals...):	40
