

## Master's Thesis

Academic Year: ( 2019 / 2020 )

Review date: 15/01/2019 13:40:32

Department assigned to the subject: Economics Department

Coordinating teacher: CARRASCO PEREA, RAQUEL

Type: Master Final Project ECTS Credits : 12.0

Year : 2 Semester : 0

## REQUIREMENTS (SUBJECTS THAT ARE ASSUMED TO BE KNOWN)

In order to apply for registering in the Master Thesis, students must be registered in all remaining courses that they need to pass to complete their Master studies.

In order to submit and defend the Master Thesis, students must have passed all required courses included in the Study Plan.

## OBJECTIVES

Knowledge:

- to apply theoretical knowledge acquired during the Master studies to the understanding of real economic phenomena.
- to analyze realistic scenarios of research in Industrial Economics and Markets.
- to collect and summarize all relevant information that is necessary in order to conduct an appraisal of an economic situation.
- to assess causes and consequences of a given economic or industrial policy, either public or private, present or historical. On the basis of such assessment, the student will be able to express a reasoned judgement, substantiated by an empirical analysis of the problem.

Skills:

- to search, select and process the necessary information to study an economic issue. The student will be able to summarize all relevant diagnostic information and reject redundant or irrelevant information.
- to contribute new ideas, make suggestions and take decisions in order to solve economic problems.
- to use discernment about the collected information and the ambiguity of economic situations.

Aptitudes:

- to be enterprising in order to undertake new research projects.
- to be committed to his/her research proposals.
- to motivate, prove and defend his/her approach.
- to show a commitment to cooperation, be willing to share ideas and results.

## DESCRIPTION OF CONTENTS: PROGRAMME

The objective of the Master Thesis is to allow students to carry out a research project in the field of Industrial Economics.

For that purpose, students will apply the scientific methodology learned during their Master studies.

In order to write a Thesis, students will first choose a topic of their interest, then they will identify a research problem that can be approached on the basis of one or different questions, under the supervision of an academic supervisor.

El Trabajo Fin de Máster (TFM) tiene como finalidad la realización de un trabajo de carácter individual bajo la dirección de un tutor académico.

Presentation and defense. The student will present a summary of the basic features of his/her Thesis (research questions, bibliographical references, data, methods, results) in an oral presentation in front of a jury. The presentation will be based on slides with a standard format.

## LEARNING ACTIVITIES AND METHODOLOGY

Learning activities:

Supervision

Individual work by the student

Methodology:

Office hours with the advisor and the coordinator

Workshop to present the work in progress to the coordinator

## ASSESSMENT SYSTEM

The evaluation of the Master Thesis is a prerogative of the Jury. The Jury will take into account: 1) The student's presentation and defense; 2) the analysis of his/her written document. In both cases the jury will assess the knowledge and the skills demonstrated by the student. The Tutor will write for each student a detailed report, in order to explain the scientific merits of the work carried out, as well as his/her attitude and effort during the process. The Jury can take into account the Tutor's Report in the evaluation of the Thesis.

The University uses the Turnitin Feedback Studio program within the Aula Global for the delivery of student work. This program compares the originality of the work delivered by each student with millions of electronic resources and detects those parts of the text that are copied and pasted. If the student has correctly made the appointment and the bibliographic reference of the documents he uses as a source, Turnitin will not mark it as plagiarism.
