LEARNING ACTIVITIES AND METHODOLOGY

Acquisition of theoretical knowledge (1 ECTS), through lectures, teaching materials prepared by the teacher, online tutorials, specialized reading, and the students' personal study, related to theoretical competences.

Acquisition of practical skills and abilities (2 ECTS), through case-studies oriented to information seeking in web sources, analysis of these sources, evaluation of results, presentation and citation of content.

Student assignments will be done partly in a computers classroom with direct supervision of the teacher; and partly out of the classroom with the support and subsequent control of the teacher. These assignments will be in particular oriented on the acquisition and development of practical skills.

The days and hours of tutorship sessions for each group will be available in the course space in Aula Global.

ASSESSMENT SYSTEM

This course follows exclusively a process of continuous assessment, according to the following parameters:

- Formative assessment based on self-assessment exercises to measure the acquisition of theoretical knowledge, and practical activities and exercises: up to 60% of the final grade.
- Final test held on the last day of classes, during usual hours and in a classroom to be determined: up to 40% of the final grade.

IMPORTANT NOTICE

1) As in all your work, no copying or plagiarism is allowed. If such is detected, no credit for the activity will be given.

2) This course has a single examination session; there is no extraordinary call. In case of failing, the student must do a new inscription for the following academic year.

Nevertheless, the students who have participated in at least 30% of learning activities and ongoing evaluation and have not passed the subject may regain it by performing the following mandatory activities:

- Work proposed by the teacher (50% of grade). The deadline for delivery of the work is the day set for the test.
- Multiple choice test where the acquisition of specific knowledge of the subject (50% of grade) will be verified. This test will be held the day before the start of the extraordinary call. The teacher shall inform students and classroom time reserved for its realization.

If as a result of recovery activities the student surpasses, the teacher shall amend the note on the scoresheet.

% end-of-term-examination:	0
% of continuous assessment (assignments, laboratory, practicals...):	100
