REQUIREMENTS (SUBJECTS THAT ARE ASSUMED TO BE KNOWN)

Compulsory subjects in first and second degree Journalism

OBJECTIVES

Students acquire the theoretical and practical know the reality of media companies in connection with the concepts and practices in organization, management, production and marketing of information products.

Learn the elements needed to lead, manage and even create a media company.

Should be applied to media companies learned in the course.

DESCRIPTION OF CONTENTS: PROGRAMME

In addition to the conceptual framework and contrast it must acquire knowledge of topics such as history and development of media companies, the structure of media companies, organization, management principles and their applications, information markets, information products marketing and marketing management structure (income and expenditure), the multimedia group organization, strategic management of media companies, among others. The program consists of the following learning units:

Unit I: Concept and configuration of the information company

Unit II: Strategic Planning. Basic Principles and Stages

Unit III: Fundamentals of the informative company. Social Responsibility

Unit IV: Resource Management in information companies

Unit V: Legal Framework For information companies

Unit VI: The Information Market

Unit VII. Marketing of the informative product Unit VIII: Broadcast and hearing Controls

Unit IX: The business model of information companies

Unit X: Trends in information company financing systems

LEARNING ACTIVITIES AND METHODOLOGY

The work plan is aimed at combining the theoretical knowledge (3ECTS) with the realization of practices (3ECTS). Within the development of the theoretical classes will be explained the basic contents of the subject and the keys so that the student can develop effectively his personal work. The personal work part will consist of the study of the contents of the class exhibits, as well as the recommended readings.

The practices will be developed cooperatively in groups: On the one hand will be carried out four practices of market analysis, and on the other will develop a project of strategic planning in which will work throughout the course and that will be tutored by the Professor.

During the course, individualized tutorials will be held every week to address the doubts that students may have in terms of theory and practice of the subject. Collective tutorials will Also be held for the practice groups. The Teacher will set the tutoring schedule in the global classroom.

ASSESSMENT SYSTEM

% end-of-term-examination:	50
% of continuous assessment (assignments, laboratory, practicals...):	50

Of all the theoretical contents, a final examination will be carried out, with a value of 50% on the final note. The Four market analysis practices will have a percentage value of 25% on the final grade of the student, and the Business Project is also worth 25% on the final grade that the student obtains. The spelling, both in the practices and in the examination will be taken into account for the evaluation. To approve the subject and proceed to the summation of the note of continuous evaluation (practices and project) to the note of the examination it is obligatory to take in the final examination at least a 3 over 10. If you get a rating of less than 3 in the final exam the subject will have a suspense rating.
