LEARNING ACTIVITIES AND METHODOLOGY

The course has six ECTS credits, of which three are of theoretical content. The other three credits correspond to practice producing a publication of local information

ASSESSMENT SYSTEM

The evaluation will be ongoing to review practices and through face to the theoretical content of the subject.

Throughout the course there will be weekly practices, whose realization is essential to participate in the ongoing evaluation. The note of this practical section will be linked to the achievement of at least two

editions of an informative character and preferably on the local currency of Getafe to be held by groups. At the practical section of the course will be up, 60% of the final grade. The remaining 40% correspond to the final exam on the theoretical aspects of the subject.

Students who do not participate in the ongoing assessment should do the same kind of practical work than their peers, but individually.

% end-of-term-examination: 40

% of continuous assessment (assignments, laboratory, practicals...): 60
