LEARNING ACTIVITIES AND METHODOLOGY

The program of this course will be developed in lectures and they will be held in large group sessions.

Other types of activities will carry out in small groups. Activities like the resolution of cases studies, exhibitions of the students, discussions of the work documents, proceedings or presentations of works of the initiation to the investigation, without excluding the realization of periodical controls about the subject matter developed in the semester. However, due to the extension of the syllabus, the first classes of the small groups could be use to develop some theoretical matter.

The aim of this combination of work's methods is the develop of the capacities and the competences identified between the Bachelor's degree characteristics.

ASSESSMENT SYSTEM

In order to assess students' knowledge the teacher shall be taken into account:

The works and activities developed in the big and small group classes during the semester (40% of the total final mark) .All the students must attend big and small groups classes. Therefore, class attendance, both large group such as small group, is a key for the development of the continuous assessment.

- A supplementary examination or final exam that will take place at the end of the semester (it will have a weight of 60% on the final mark).

In any case, the students have to get in the final exam more than 4 points (2,5 on the 6 points, maximum mark of this exam) to pass the course. A minimum score may be required in each of the parts of the exam.

In the case of the extraordinary call, the student will obtain the grade resulting from the previous operation (40-60) or the one obtained in the final exam (100%), whichever is higher.

% end-of-term-examination:	60
% of continuous assessment (assignments, laboratory, practicals...):	40
