Ability to solve practical cases of great complexity in EU Law.

Achieving assessment of national practices aimed at impeding at national level the implementeation of EU Law.

Knowledge of the areas and cases where principle of supremacy applies.

## GOALS

During internship period, student's skills will be tested on ground, under the tutorship of selected

professionals, in a fully international and high demanding context.

In particular:

1. Students will be entrusted with relevant responsibilities in order to satisfy high professional standards;
2. students will be involved in working teams specialized in both national and international fields;
3. Knowing how a big law firm or the legal department of a company really works. A special attention will be drawn on professional secrecy and personal data protection.
4. Students will be acquainted with institutions and officials of the public bodies both at national and international level, as well as Courts.
5. Ability to solve cases involving professional ethics especially regarding conflicts of interest.

During internship each student will be assigned to one tutor, being the last an experienced professional with more than 5 years of practice.

## DESCRIPTION OF CONTENTS: PROGRAMME

LLM Academic Board is entitled to supervise that the institution into which students will join their internship as well as tutors, fulfill demanded requirements, and in particular following:

1. full integration of the student within working teams carrying out analysis, advisory or litigation in relevant legal issues;
2. full and detailed knowledge of regulation and practice concerning professional ethics;
3. direct approach to the clients under tutor's supervision;
4. allowing student to take part in issues related to the application of EU Law with relevant trans-national features.

LLM Programme prepares student to a high quoted professional career truly international and competitive. Internships will take place in highly qualified law firms and entities associated to the Academic Board of the LLM (see link below):

## LEARNING ACTIVITIES AND METHODOLOGY

### ACTIVITIES

Students carry out advisory of clients involved into an international dispute or legal issue, including litigation before national and EU Courts.

Student's activity, during this period, involves the examination of legal issues, the elaboration of reports or legal acts, pre-litigation advisory and litigation.

The process is aimed to gradually develop individual's skills as internship goes on.

### METHODOLOGY

All knowledge students achieve during this time grounds on tutor's working plan.

In all cases such skills must include abilities that lawyers are deemed to own in the resolution of complex international legal disputes.

Coordination among LLM's Academic Board, law firms and tutors will grant full equality for students as for the excellence of the internship they are going to join.

## ASSESSMENT SYSTEM

Tutor responsible for students internship will fulfill an assessment about activities carried out, personal profile, their skills, accuracy, manners with colleagues and clients, and professional ethics.

An agreement previously celebrated between UC3M (MUDUE) and the Collaborating Entity will regulate all the relevant aspects of the stage according to the law.

The report will be sent to the LLM Academic Board which will communicate the result confidentially to the student. Nevertheless students maintain a permanent link with the LLM Board during the internship by which, if

any incident arises, it shall be possible to solve quickly.

In case justified complains were not dealt, there will be a swift in the tutor or the entity into which internship is taking place.
