LEARNING ACTIVITIES AND METHODOLOGY

The learning activities consist of lectures, and individual student work. The lectures give the student the necessary skills. The planned work allows students to develop and apply the knowledge gained to exercises and case studies so that they develop the skills they are expected to obtain and develop audit testing and reporting. Individual student's work is focused on the knowledge acquired in lectures and requires an individual effort to learn the audit rules in Spain.

ASSESSMENT SYSTEM

% end-of-term-examination/test:	60
% of continuous assessment (assignments, laboratory, practicals...):	40

There is a continuous assessment of the development of skills during the course, through a number of tasks on the development of audit testing and reporting. These tasks will involve 40% of the final grade. The evaluation of the knowledge gained is measured through a final exam, which will provide 60% of the final grade. It is a necessary requirement to get a minimum grade of 4 (out of 10) in the final exam to pass the course.
