Year : 1 Semester : 2

REQUIREMENTS (SUBJECTS THAT ARE ASSUMED TO BE KNOWN)

It is necessary to have completed all the subjects of the Master to be able to do the defense of the Master's Thesis

OBJECTIVES

BASIC SKILLS

- Knowledge and understanding that provide a basis or opportunity for originality in developing and / or applying ideas, often in a research context
- That the students can apply the broader (or multidisciplinary) acquired knowledge and ability to solve problems in new or unfamiliar environments within contexts related to their field of study
- That students are able to integrate knowledge and handle complexity, and formulate judgments based on information that was incomplete or limited, includes reflections on social and ethical responsibilities linked to the application of their knowledge and judgments
- Students can communicate their conclusions and the knowledge and rationale underpinning to specialists and non-specialists in a clear and unambiguous
- Students must possess the learning skills that enable them to continue studying in a way that will be largely self-directed or autonomous.

GENERAL SKILLS

- That the students can identify the conflict and the specialties of it and its dynamics
- Students learn to detect within the spectrum of conflict resolution, which is the most appropriate mechanism to deal with them and how to use it

SPECIFIC SKILLS

- Correctly identify and develop collaborative negotiation processes, and identify attitudes and behaviors of the opposing party
- Nimbly handle the specifics of the material chosen as the core of their work, including issues pertaining to the problems in the field of alternative dispute resolution
- Synthesise acquired under Title knowledge as basis for the preparation of the Master's Thesis on a specific and concrete
- Capable of producing a structured and consistent on the field of alternative dispute resolution work, and simultaneously transmit clearly and precisely the draft prepared

LEARNING OUTCOMES

- By preparing the Master's Thesis, students consolidate the knowledge acquired in the framework of the compulsory subjects and / or optional, deepening a specific facet of the subject taught.
- The improvement of learning through the development of the Final Master will be observed by exposing the same court designated for that purpose. The student will have to present their work, successfully answering questions or questions from members of the court.

DESCRIPTION OF CONTENTS: PROGRAMME

- Development of final work on any of the topics taught within the framework of the compulsory subjects

and / or optional Master.

- Oriented mentoring oversee the development of the final work, answer questions and guide the student.
- Face sessions in which the final papers before the court designated for evaluation will be presented.

LEARNING ACTIVITIES AND METHODOLOGY

TRAINING ACTIVITIES

- Theoretical classes
- Practical classes
- Individual student work

TEACHING METHODOLOGIES

- Presentations in class which develop the main concepts of the subject and provides the bibliography to complement the learning of the students.
- Elaboration of works and reports individually or in group.
- Critical reading of recommended texts of the subject studied:press articles, reports, manuals and/or academic articles, well for its subsequent discussion in class, either to expand and consolidate the knowledge of the subject.

ASSESSMENT SYSTEM

The rating system will combine two evaluation methods, with the aim of evaluating the quality of work produced by the student and check the extent there could assimilate the course content.

Will be evaluated written work prepared by the student and submitted to the faculty and the exhibition of the same by the student to the members appointed for the purpose court, during which the student will be invited to answer questions and clarify doubts about the subject will be assessed treated in his Master's Thesis.

The University uses the Turnitin Feedback Studio program within the Aula Global for the delivery of student work. This program compares the originality of the work delivered by each student with millions of electronic resources and detects those parts of the text that are copied and pasted. If the student has correctly made the appointment and the bibliographic reference of the documents he uses as a source, Turnitin will not mark it as plagiarism.
