- to show a commitment to cooperation, be willing to share ideas and results.

DESCRIPCIÓN DE CONTENIDOS: PROGRAMA

The objective of the Master Thesis is to allow students to carry out a research project in the field of Industrial Economics.

For that purpose, students will apply the scientific methodology learned during their Master studies.

In order to write a Thesis, students will first choose a topic of their interest, then they will identify a research problem that can be approached on the basis of one or different questions, under the supervision of an academic supervisor.

El Trabajo Fin de Máster (TFM) tiene como finalidad la realización de un trabajo de carácter individual bajo la dirección de un tutor académico.

Presentation and defense. The student will present a summary of the basic features of his/her Thesis (research questions, bibliographical references, data, methods, results) in an oral presentation in front of a jury. The presentation will be based on slides with a standard format.

ACTIVIDADES FORMATIVAS, METODOLOGÍA A UTILIZAR Y RÉGIMEN DE TUTORÍAS

Learning activities:

Supervision

Individual work by the student

Methodology:

Office hours with the advisor and the coordinator

Workshop to present the work in progress to the coordinator

SISTEMA DE EVALUACIÓN

The evaluation of the Master Thesis is a prerogative of the Jury. The Jury will take into account: 1) The student's presentation and defense; 2) the analysis of his/her written document. In both cases the jury will assess the knowledge and the skills demonstrated by the student. The Tutor will write for each student a detailed report, in order to explain the scientific merits of the work carried out, as well as his/her attitude and effort during the process. The Jury can take into account the Tutor's Report in the evaluation of the Thesis.

La Universidad utiliza el programa Turnitin Feedback Studio dentro de Aula Global para la entrega de los trabajos de los estudiantes. Este programa compara la originalidad del trabajo entregado por cada estudiante con millones de recursos electrónicos y detecta aquellas partes del texto copiadas y pegadas. Si el estudiante ha realizado correctamente la cita y la referencia bibliográfica de los documentos que utilice como fuente, Turnitin no lo marcará como plagio.
