LEARNING ACTIVITIES AND METHODOLOGY

Theoretical and practical sessions in order to study real issues.

ASSESSMENT SYSTEM

The degree of understanding of the concepts of the discipline will be evaluated, as well as their practical application, through a 100% continuous assessment system.
Students will be graded based on the results of the assessment of a final case that students must complete and submit in writing, reflecting the skills acquired in the subject (40%). Their performance will also be evaluated through the delivery and presentation of practical cases or comments on sentences (30%), of the different subjects taught; as well as their attendance and participation in the master classes and practices (30%).

- 40% Delivery of a final practical case.
- 30% Delivery of practical cases or judgment comments on the different topics
- 30% Attendance and participation in master classes and practices

% end-of-term-examination:	0
% of continuous assessment (assigments, laboratory, practicals…):	100
