Year : Semester :

REQUIREMENTS (SUBJECTS THAT ARE ASSUMED TO BE KNOWN)

Public Management I

OBJECTIVES

After taking this course the student will be able:

1. To know strategic public management theory and practice in depth
2. To develop skills to apply strategic instruments to public policies and programs management

DESCRIPTION OF CONTENTS: PROGRAMME

1. Strategic public management: principles and essential concepts. Public policies and strategies. Value creation in public organizations.
2. Approaches and schools on strategic public management
3. Design of strategic plans. Prospective analysis and prioritization. Negotiation skills for strategic planning. Defining missions, strategies and objectives in connection to public policy. Strategy maps in public policies and managing programmes.
4. Strategic planning: implementation, monitoring and evaluation. Defining specific objectives, performance measures and tasks. Partnerships and resource. Budget and calendar. Operational plans and projects. Management controls and evaluation systems.

LEARNING ACTIVITIES AND METHODOLOGY

- Lectures and case studies in class
- Simulation exercises on public strategic management (group)
- Book review on public strategic management
- Presentations, where appropriate, by student teams
- Report on case study about public strategic management

ASSESSMENT SYSTEM

% end-of-term-examination/test:	60
% of continuous assessment (assignments, laboratory, practicals...):	40

- Compulsory final exam: 60%; in which a 40% must be obtained to calculate the weighted average and pass the course.

- Continuous assessment activities: 40%

The exam for the extraordinary assessment will be similar as the exam for the ordinary assessment. In this case, as indicated in the University regulations, the teacher will give the student the highest mark between: (1) weighted average between the exam and the continuous assessment, and (2) 100% of the exam mark.
