LEARNING ACTIVITIES AND METHODOLOGY

Learning activities :

- * Lectures. (0,8 ECTS)
- * Exercise resolution sessions. Exercises solved in the classroom to ensure assimilation of the contents. (0,8 ECTS)
- * Computer lab or case discussion sessions (0,4 ECTS)
- * Individual and group-based student work. E.g. study, case presentation, MOOC completion... (4 ECTS)

Learning methodologies:

- * Lectures by the instructor, supported by computer and audiovisual tools. Bibliography to complement the learning process will be provided.
- * Resolution of practical cases, exercises, etc. ... proposed by the instructor, either individually or as a group
- * Class presentation / discussion, moderated by the instructor, of practical cases and contents related with the subject
- * Individual or group preparation of reports or analysis (mainly during the case discussion sessions)

ASSESSMENT SYSTEM

The assessment system will encompass the continuous evaluation of the student activity (including, when applicable, activities such as case presentation and/or MOOC completion), as well as an assessment through a final written exam, that will globally evaluate the knowledge, skills and capabilities acquired throughout the course. Percentages: 40% (Continuous evaluation) and 60% (final written exam).

Minimum grade at final exam to pass the course: 4

In the extraordinary (make-up) evaluation, continuous evaluation grade will only be taken into account if this leads to a higher grade.

% end-of-term-examination:	60
% of continuous assessment (assignments, laboratory, practicals...):	40
