LEARNING ACTIVITIES AND METHODOLOGY

According to the ECTS system, the two credits of this subject correspond to 25 hours of student's work. These Works hours are distributed in the following way:

- 6 hours of in person class in which are included theoretical and practical sessions.

These session are based specially in Professor's explanations on basic concepts and general indications for reading and practical cases. These classes area active for students and require their participation with questions and debates.

- 9 hours of individual study by the students on the recommended readings of the bibliography and practical cases.
- 20 hours of elaboration and presentation of a work. This work should be done individually and consists of applying the knowledge on legal arguments.
- There will be a system of tutorials for the students.

ASSESSMENT SYSTEM

The assessment is based specially on the work. It is also assessed the students participation and the presentation of expositions.

Class participation 10%

Individual final work 90%

% end-of-term-examination:	0
% of continuous assessment (assigments, laboratory, practicals...):	100
