LEARNING ACTIVITIES AND METHODOLOGY

The work plan is aimed at combining the theoretical knowledge (3ECTS) with the realization of practices (3ECTS). Within the development of the theoretical classes will be explained the basic contents of the subject and the keys so that the student can develop effectively his personal work. The personal work part will consist of the study of the contents of the class exhibits, as well as the recommended readings.

Project of strategic planning in which will work throughout the course and that will be tutored by the Professor and four practices.

During the course, individualized tutorials will be held every week to address the doubts that students may have in terms of theory and practice of the subject. The Teacher will set the tutoring schedule in the global classroom.

ASSESSMENT SYSTEM

% end-of-term-examination/test: 50

% of continuous assessment (assignments, laboratory, practicals...): 50

Of all the theoretical contents, a final examination will be carried out, with a value of 50% on the final note.

The Business Project: 25%

Practices: 25%

The spelling, both in the practices and in the examination will be taken into account for the evaluation.

To approve the subject and proceed to the summation of the note of continuous evaluation to the note of the examination it is obligatory to take in the final examination at least a 4 over 10. If you get a rating of less than 4 in the final exam the subject will have a suspense rating.
