

Academic Year: (2022 / 2023)

Review date: 10-05-2022

Department assigned to the subject: Department of Social Sciences

Coordinating teacher: GARCIA ALBACETE, GEMA MARIA

Type: Compulsory ECTS Credits : 3.0

Year : 1 Semester : 2

OBJECTIVES

- CB6: Acquire and understand knowledge that offers a base or opportunity to be original in the development and/or application of ideas, often in a research context
- CB7: Students can apply the knowledge acquired and able to solve problems in new or less known contexts related to the area of study
- CB8: That students are able to integrate knowledge and face the complexity of formulating judgments based on information that, being incomplete or limited, includes reflections on social and ethical responsibilities linked to the application of their knowledge and judgments
- CB10: That students have the learning skills that allow them to continue studying in a way that will be largely self-directed or autonomous.
- CG1: Ability to plan and carry out autonomously research in the field of public opinion or political behavior.
- CG2: Ability to interpret and integrate information from the political and social environment in order to be able to effectively analyze a situation with incomplete information.
- CG3: Ability to apply the specialized theoretical and methodological knowledge from the discipline to the current political and social phenomena in a practical way.
- CG4: Mastery of the necessary tools for obtaining data and empirical information, especially of a quantitative nature, the evaluation of its validity and relevance, and its effective use in political analysis.
- CG5: Ability to adequately convey in the analyzes the inherent uncertainty of political and social phenomena
- CE1: Be able to develop and evaluate research designs to analyze political behavior.
- CE2: Ability to understand and analyze in a rigorous way survey data in the field of political behavior.

LEARNING RESULTS

1. Ability to compare survey and experimental methodologies and to inform about the potential or limitations of different designs.
2. Evaluation of survey and experimental designs and understanding of the different types of surveys and experiments.
3. Ability to design and carry out a survey or experiment.
5. Ability to analyze the results of an experiment.

DESCRIPTION OF CONTENTS: PROGRAMME

Experiments and political behavior (code 1.2):

1. The experimental logic. Observational research designs. The framework of potential results. History of the experiments in the political field. General introduction to experimental design.
2. The design of experiments. Internal and external validity. Types of designs Main decisions. Field, laboratory and survey experiments. Sample size and statistical power analysis.
3. The analysis of the experimental data. Most common analysis problems.

ASSESSMENT SYSTEM

- 15% Participation in class
- 10% Individual or group presentations in class
- 75% Papers or exercises prepared individually or in group

% end-of-term-examination:	0
% of continuous assessment (assignments, laboratory, practicals...):	100
