REQUIREMENTS (SUBJECTS THAT ARE ASSUMED TO BE KNOWN)

Students who have studied economics, ADE or business, must complete the course "Basic aspects of tax law and commercial law", in addition to the subject "Advanced accounting". Students who come from Law or double degrees, Law being one of them, must take the subjects "Basic accounting" and "Advanced accounting".

OBJECTIVES**LEARNING OUTCOMES THAT THE STUDENT ACQUIRES**

Typically, the accounting and financial knowledge of students in careers related exclusively to the legal field is often insufficient for in-depth analysis of certain tax figures that require a solid understanding in such areas.

For this reason, we believe it is appropriate that the first subjects to be taught in the Master's are subjects related to accounting and finance issues to ensure solid learning that results in a sufficient knowledge base to address the course.
