Type: Electives ECTS Credits : 6.0

Year : 4 Semester :

REQUIREMENTS (SUBJECTS THAT ARE ASSUMED TO BE KNOWN)

Commercial Law

OBJECTIVES

Make the students able to apply the knowledge acquired, and their ability to solve problems in environments that are new or little known within broader contexts (or multidisciplinary) related to their field of study, Financial Markets Law: Understand the multidisciplinary nature of the legal order and the necessarily interdisciplinary approach to legal problems.

Ability to understand the advisory role in the broader transnational environment.

Designing an advisory program for measures of international legal compliance, as a result of the identification, planning, and mitigation of risks arising from the undertaking of legal affairs.

Capacity to understand the economic implications of legal decisions, and the financial perspective when evaluating a client or a project.

After taking this course the student will be able to:

-To describe the basic institutions of Financial Markets Law.

-To explain the essential regulation Financial Markets Law and determining the basic principles governing Financial Markets Law.

-To draw a global view of Financial Markets Law.

-To describe the organization and workings of the essential concepts of accounting and finance.

-To design, plan, and put in practice the legal strategy according to compliance rules.
