ASSESSMENT SYSTEM

CONTINUOUS ASSESSMENT

The total grade scores about 10, according to the following breakdown:

- 4 points - continuous assessment: consists essentially of two partial examinations.
- 6 points - final exam. To pass this course, it is necessary to achieve a minimum score of 2.1 out of 6 in the final exam. Thus, the student will fail the course if this requirement is not met, even though he may reach at least a score of 5 points as a result of the addition of the continuous assessment and the final exam's grades.

Student participation in class will positively influence the student's final grade.

NON-CONTINUOUS ASSESSMENT

The final grade is based on the final examination, on which the student can score a maximum of 6 points out of 10. A rule of three shall apply on the qualification obtained in the examination: if a student obtains 10 points in this final exam, he will achieve a 6 points grade for this course. This means that a student may obtain 8.3 points out of 10 in the final exam to pass the course.

% end-of-term-examination:	60
% of continuous assessment (assignments, laboratory, practicals...):	40
