DESCRIPTION OF CONTENTS: PROGRAMME

Common themes to the subjects:

The themes common to the relative part of the law of European economic governance are the study of the legal institutions that exist in each of the proposed subjects, in addition to the analysis of the concepts and categories, which are also common to the entire EEG. Institutions such as the ECB, the European Commission, the ESM, the SSM, the SRM, the European Fiscal Council, etc., are present in the decision-making process of the EU in matters of European Economic Governance, in general. In addition, legal categories such as deficit and debt limits, the ECB's inflationary targets, the fiscal golden rule, the Memoranda of Understanding, or the conditionality of financial bailouts, are common to all the subjects in which this matter is broken down.

Specific topics of each subject:

¿ European Economic Governance Law: subject focusing on examining the basic legal principles and concepts of the EEG and the jurisprudence of the CJ in this matter. In particular, the following topics shall be analysed and discussed:
