DESCRIPTION OF CONTENTS: PROGRAMME

Common themes to the subjects:

The themes common to the relative part of the law of European economic governance are the study of the legal institutions that exist in each of the proposed subjects, in addition to the analysis of the concepts and categories, which are also common to the entire EEG. Institutions such as the ECB, the European Commission, the ESM, the SSM, the SRM, the European Fiscal Council, etc., are present in the decision-making process of the EU in matters of European Economic Governance, in general. In addition, legal categories such as deficit and debt limits, the ECB's inflationary targets, the fiscal golden rule, the Memoranda of Understanding, or the conditionality of financial bailouts, are common to all the subjects in which this matter is broken down.

Specific topics of each subject:

- o Accession, exit and expulsion from the euro zone
- o The European Central Bank
 - ¿ Independence
 - ¿ Mission
 - ¿ Choice
 - ¿ Prohibition of monetary financing
- o The implementation of monetary policy by the ECB
