Linear Algebra

Academic Year: (2022 / 2023) **Review date: 25-05-2022**

Department assigned to the subject: Mathematics Department

Coordinating teacher: TORRENTE ORIHUELA, ESTER AURORA

Type: Basic Core ECTS Credits : 6.0

Year : 1 Semester : 1

Branch of knowledge: Engineering and Architecture

REQUIREMENTS (SUBJECTS THAT ARE ASSUMED TO BE KNOWN)

Sixth form level linear algebra.

SKILLS AND LEARNING OUTCOMES

¿ Operate with vectors, bases, subspaces, matrices, and linear applications.
¿ Interpret and apply the results of algebraic reasoning to problem solving.

DESCRIPTION OF CONTENTS: PROGRAMME

1. Linear equation systems
2. Vectorial spaces
3. Matrices
4. Scalar product and normal form
5. eigenvectors and eigenvalues
6. Decomposition into singular values
7. Interpretation and applications

LEARNING ACTIVITIES AND METHODOLOGY

THEORETICAL-PRACTICAL CLASSES (2 ECTS). Concepts and knowledge to be acquired are presented in these sessions. Students are provided with lecture notes and can find basic reference bibliography to facilitate class understanding and posterior personal work. Exercises are solved by students for self-assessment and achievement of necessary skill. During the practical sessions, students are presented with exercises that are discussed and solved.

TUTORING SESSIONS. Sessions to clarify theoretical or practical issues encountered by students on an individual or in-group basis.

INDIVIDUAL AND GROUP WORK. 2.5 ECTS. Students' personal work.

CONTINUOUS ASSESSMENT. 1 ECTS. Knowledge, skills and abilities, gradually acquired, are globally assessed. They serve as self-assessment of progress to adapt learning strategies if necessary.

FINAL EXAM. 0.5 ECTS. Knowledge, skills and abilities acquired over the course of the academic semester are globally assessed.

ASSESSMENT SYSTEM

Activities and exams have a two-fold purpose: training and assessment. The evaluation system includes the assessment of these academic activities according to the following weighting:

Continuous assessment activities: 40%
Final exam: 60%

Minimum mark in the final exam: none.
Minimum mark in continuous assessment: none.

% end-of-term-examination:	60
% of continuous assessment (assigments, laboratory, practicals…):	40
