## LEARNING ACTIVITIES AND METHODOLOGY

Competencies, attitudes and skills will be acquired by students through teaching sessions, individual case study with brief case analysis, analysis of web pages of corporations and institutions, as well as the development with a work group of a final marketing project, which will be a company marketing plan.

Skills in regard to the diagnosis and recommendations of actions, and the capability to synthesize the ideas, concepts and results, will be developed along the semester within the work group marketing project, which will be compulsory and will have an important work load within the full course. It will also have an important weight within the final course grade.

The course will have the following structure:

- Students will have the information about the bibliographic material, which will be stated in the recommended bibliography. They will also have the teaching materials prepared by the professor for the course.
- Companies brief cases, mainly derived from professional journals and magazines. This material will be the basis for class discussion. These brief cases will be done either as individual work and as group work, depending on the case and theme.
- A full guide to develop the semester final marketing project: a marketing plan for a tourist company or institution.

The different cases, either those done individualistic or those done in group, will be given to the professor in due date.

The 6 ECTS credits will be structured as follows:

Teaching classes for theory and concepts: 3 ECTS

Individual cases: 1 ECTS

Group cases and final marketing project: 2 ECTS

The theoretical and conceptual classes will allow students to adequately develop the proposed competencies, and specially, to know the specific characteristics of the marketing of products and services. Cases and group related activities will allow students to focus in diagnostic, evaluation capabilities, as well as develop their skills to work in a group and to acquire the responsibility to comply to deadlines and group objectives.

## ASSESSMENT SYSTEM

The final evaluation scheme is established based on three different grades:

60%: a final exam that will cover all theoretical contents of the course. It is aimed to evaluate the acquired knowledge.

Minimum grade in the exam for final evaluation: 3.8

20%. Valuation of individual work, based on brief case analysis of companies and/or institutions. This evaluation will cover the area of skills and capabilities.

20% The marketing final project - Marketing plan, that will be developed in group and presented in the class room for a time period no in excess of 30 minutes.

These three weighting grades have the objective to assure the degree student has acquired the necessary knowledge, capabilities and skills put forward in the course program.

Extraordinary exam:

Students who do not pass the subject in the ordinary call will have an extraordinary call:

1. If the student has followed the continuous evaluation: the qualification will be the one established in the subject program for the ordinary call. However, the student will have the right to be evaluated only with the grade obtained in the final exam if this is more favourable.
2. If the student did not follow the continuous evaluation: the grade will be the one obtained in the final exam. However, the professor may authorize the delivery of the continuous assessment exercises in the extraordinary call, evaluating in such a case in the same way as in the ordinary call.

<b>% end-of-term-examination:</b>	60
<b>% of continuous assessment (assignments, laboratory, practicals...):</b>	40
