LEARNING ACTIVITIES AND METHODOLOGY

The credits are divided equally into two blocks of three credits each. Each of these blocks is assigned either to theoretical content or to a set of practical exercises.

The theoretical contents will be supported by face-to-face and participative lessons using the tools that facilitate exposure.

As for the practical exercises, classroom practices will be carried out at the end of each subject. In these classroom practices, some of the basic readings from the bibliography, press articles, regulatory texts, documentaries or films will be used as support.

ASSESSMENT SYSTEM

In accordance with the organisation of the contents of the training activities, the assessment is divided into two blocks. The theoretical part is assessed by means of a final exam whose qualification represents 40% of the final mark. The other 60% corresponds to the practical part of the subject.

Aspects such as: attendance, active participation in the classroom, completion of all activities, attitude and interest in the topics and debates raised will also be assessed.

Percentage weight of the Final Exam: 40

Percentage weight of the rest of the evaluation: 60

In the Extraordinary Examination, the grade of the continuous assessment process will be used if the student has followed it, and if not, he/she will be entitled to an exam with a value of 100% of the grade.

% end-of-term-examination:	40
-----------------------------------	----

% of continuous assessment (assignments, laboratory, practicals...):	60
