OBJECTIVES

Tax plays an essential role both in the life of the ordinary citizen as in the life (and death) of multinational companies. Borders within Europe are disappearing and companies and employees can move around freely. It is a challenge to discover which countries have the most favourable tax climate. Moreover, laws are amended every year, which poses an additional challenge both to tax payers and to tax advisors.

Because learning about the Spanish Tax System without access to English legal texts poses a challenge (Spanish Tax Laws are normally not translated into other languages), this programme will focus on general aspects of taxation, as well as on specific problems of Spanish Tax Law which can be addressed by using available materials in English.

The aim of this course is to examine the current Spanish tax system, as well as to study selected current issues as they arise during the year.

ASSESSMENT SYSTEM

CONTINUOUS ASSESSMENT

The total grade scores about 10, according to the following breakdown:

- 4 points - continuous assessment: consists essentially of two partial examinations.
- 6 points - final exam. To pass this course, it is necessary to achieve a minimum score of 2.1 out of 6 in the final exam. Thus, the student will fail the course if this requirement is not met, even though he may reach at least a scope of 5 points as a result of the addition of the continuous assessment and the final exam's grades.

Student participation in class will positively influence the student's final grade.

NON-CONTINUOUS ASSESSMENT

The final grade is based on the final examination, on which the student can score a maximum of 6 points out of 10. A rule of three shall apply on the qualification obtained in the examination: if a student obtains 10 points in this final exam, he will achieve a 6 points grade for this course. This means that a student may obtain 8.3 points out of 10 in the final exam to pass the course.

% end-of-term-examination:	60
-----------------------------------	----

% of continuous assessment (assignments, laboratory, practicals...):	40
