LEARNING ACTIVITIES AND METHODOLOGY

During the course, different cases and practical exercises on marketing management and market research will be analyzed. In the last weeks, and as a group project, students will implement a business marketing and communication plan.

ASSESSMENT SYSTEM

Assessment will be based on a mixture of individual and group work. In determining grades, specific assignments will be weighted as follows.

General Individual results on Quizzes for readings and cases: 20%

Individual participation in class discussion about readings, cases and other related class subjects: 10 %

Group Project in the area of new trends in marketing: 20%

Final written exam: 50 % (Minimum score to be considered: 3.8 over 10)

Extraordinary exam:

Students who do not pass the subject in the ordinary call will have an extraordinary call:

1. If the student has followed the continuous evaluation: the qualification will be the one established in

the subject program for the ordinary call. However, the student will have the right to be evaluated only with the grade obtained in the final exam if this is more favourable.

2. If the student did not follow the continuous evaluation: the grade will be the one obtained in the final exam.

However, the profesor may authorize the delivery of the continuous assessment exercises in the extraordinary call, evaluating in such a case in the same way as in the ordinary call.

% end-of-term-examination:	50
-----------------------------------	----

% of continuous assessment (assignments, laboratory, practicals...):	50
