## DESCRIPTION OF CONTENTS: PROGRAMME

The TFM is configured as solving a professional problem posed by the management of the Master to each student and under the supervision of a tutor, also assigned by the master, it should be reflected in a document or professional report which is subsequently defended before a Jury .

### METHODOLOGY OF WORK.

Objective: To report or other document of professional quality, a maximum of 35 pages, in which the student must solve a problem individually assigned to the direction of the Master . This work is done under the supervision of a guardian appointed by the management of the Master and is subsequently defended before a Jury .

Program:

- 1) Explanation of TFM content , methodology, stages of development and evaluation criteria and procedure .
- 2) Allocation of work items to each student.
- 3) Appointment of guardians.
- 4) Performance of Work .
- 5) Evaluation .

## LEARNING ACTIVITIES AND METHODOLOGY

### TRAINING ACTIVITIES

Do you practice theoretical class (2 hours)  
personalized tutorials (6 hours)  
Individual student work (172 hours)

TFM specific regulations:

<https://e-archivo.uc3m.es/handle/10016/29326>

-The tools and platforms used for the development of teaching activities have been those provided by the University for the transition to online training through Blackboard Collaborate.

- Global Classroom (Moodle), provided evaluation criteria, materials for each session in advance, supporting documentation for the classes, practical exercises and assignments, and assignments for assignments.

-Tutoring to the students by email and chats and by bb Collaborate before and after classes.

## ASSESSMENT SYSTEM

The TFM is made by students throughout the master . This pair has a tutor who can go to guide you in your research and development of TFM . The evaluation is done so by a court which will consider the assessment of the tutor , but mainly by the presentation, defense and conclusions presented by the student before the Tribunal . There is a specific regulation approved by the Academic Board of Master hung on GLOBAL CLASSROOM

The University uses the Turnitin Feedback Studio program within the SIGMA for the delivery of student work. This program compares the originality of the work delivered by each student with millions of electronic resources and detects those parts of the text that are copied and pasted. If the student has correctly made the appointment and the bibliographic reference of the documents he uses as a source, Turnitin will not mark it as plagiarism.
