

Academic Year: ( 2023 / 2024 )

Review date: 10-05-2022

Department assigned to the subject: Social and Private International Law Department

Coordinating teacher: CORREA CARRASCO, MANUEL

Type: Electives ECTS Credits : 3.0

Year : 1 Semester : 2

**REQUIREMENTS (SUBJECTS THAT ARE ASSUMED TO BE KNOWN)**

- Labor Law: The Individual Labor Relationship
- Regulatory framework of the Occupational Health and Safety
- Rights to social security
- Right to Obligations and Right to Damage

**OBJECTIVES****BASIC COMPETENCES**

- CB6 Ability to provide a basis or opportunity to be original in the development and / or application of ideas, often in a research context
- CB7 Know how to apply acquired knowledge and problem-solving skills in new or little-known environments within broader (or multidisciplinary) contexts related to the area of ¿¿study
- CB8 Integrate knowledge and face the complexity of making judgments based on information that, incomplete or limited, includes reflections on social and ethical responsibilities related to the application of knowledge and judgments
- CB9 Know how to communicate conclusions and knowledge and last reasons that support them to specialized and non-specialized audiences in a clear and unambiguous way
- CB10 To develop learning skills that allow to continue studying in a way that will be largely self-directed or autonomous.

**GENERAL COMPETENCES**

- CG1 Understanding the importance of civil liability as a sector of law with its own entity
- CG2 Learn to identify civil liability relationships and learn about their legal treatment
- CG3 Perceive the unitary character of civil liability and the necessary multidisciplinary view of the legal problems it poses
- CG4 Knowing the legal regime of civil responsibility from different perspectives of the Law, not only national, also from the international discipline
- CG5 Learning to identify the legal problem and give a solution to it
- CG6 Issue critical judgments on legal issues related to civil liability.
- CG7 Apply legal analysis methods that allow the student to be able to study and synthesize the information received.

**SPECIFIC COMPETENCES**

- CE1 Understanding the treatment of civil liability from the perspective of private law
- CE4 Identify the type of civil liability action to be exercised in Social Law matters, the jurisdictional order to which it must be articulated, and the manner of terminating the petition for damages in this matter
- CE10 Analyze the different treatments of civil liability, its problems and its solutions.
- CE11 Understand the assumptions of civil liability from a global perspective, as a whole, with legal problems arising from the different branches of law.

## LEARNING OUTCOMES

The objective of this subject is for the student to know the pillars of the system of liability for damages in the social field (individual law, collective law and social security law) as well as its normative and jurisprudential evolution, both in Spain and in the countries Of our legal environment, especially in relation to new types of damages whose repair under the traditional system presents certain difficulties.

Among the specific competences is the domain of basic legal terminology in matters of civil liability and the understanding of its development in the field of social law. Likewise, ability to appreciate the close relationship between substantive and procedural law and, finally, training for the acquisition of new knowledge in today's changing society.

Among generic competences are the ability to analyze and synthesize; Training for teamwork, acquisition of skills for oral and written communication and proper use of new technologies.

All this will allow students to have the necessary tools to know, in each specific case, what type of civil liability action is to be exercised, the jurisdictional order to which it must articulate, what are the elements necessary for the success of said action And what damages may be subject to repair.
