

Academic Year: ( 2023 / 2024 )

Review date: 27-04-2023

Department assigned to the subject: Business Administration Department

Coordinating teacher: GUILLAMON SAORIN, ENCARNACION

Type: Compulsory ECTS Credits : 6.0

Year : 2 Semester : 1

## REQUIREMENTS (SUBJECTS THAT ARE ASSUMED TO BE KNOWN)

Introduction to accounting

## OBJECTIVES

By the end of the course students should be able to:

- Solve any new accounting problem using the knowledge acquired in this and previous courses.
- Understand the effect of accounting policies on the figures reported on the financial statements.

Skills development:

- Initiative and self-learning
- The ability to select and assign priorities within restricted resources and to organize work to meet tight deadlines
- Present, discuss, report and defend views effectively.

Attitudes:

- Compliance with the fundamental ethical principles.
- Commitment to continual improvement and lifelong learning.

## DESCRIPTION OF CONTENTS: PROGRAMME

Chapter 1. Introduction to valuation and recognition criteria

Chapter 2. Inventory.

Chapter 3. Revenue recognition

Chapter 4. Receivables, discounting note receivables, factoring

Chapter 5. Tangible assets. Assets held for sale

Chapter 6. Exchange of assets and Government grants

Chapter 7. Intangible assets.

Chapter 8. Financial instruments.

Chapter 9. Equity

Chapter 10. Income tax

## LEARNING ACTIVITIES AND METHODOLOGY

The course is organised in theoretical and practical sessions. Theoretical sessions are designed to provide the basic concepts needed to solve the accounting problems analysed. Practical sessions are used to discuss exercises and practical cases where basic theoretical concepts need to be applied. The weekly programme states when theoretical sessions take place and when exercises and practical cases are discussed in the classroom. Students should revise the concepts analysed in every theoretical session and solve the proposed exercises and/or practical cases before they are discussed in the classroom.

## ASSESSMENT SYSTEM

Assessment will be based on:

- continuous evaluation 40%
- final exam: 60% (a minimum of 4 is required before considering the average with the continuous assessment grade).

Extraordinary call:

a. If the student followed the continuous assessment process, the exam will have the same percentage value as in the ordinary call, and the final grade of the course will take into account the grade of the continuous evaluation plus the grade obtained in the final exam.

- b. If the student did not follow the continuous evaluation process, they will have right to take an exam in the extraordinary call with a value 100% of the total grade for the course.
- c. Even if the student had followed the continuous evaluation process, will have the right to be qualified in the extraordinary call taking into account only the grade obtained in the final exam counts when it is more favorable.

<b>% end-of-term-examination:</b>	60
<b>% of continuous assessment (assignments, laboratory, practicals...):</b>	40
