LEARNING ACTIVITIES AND METHODOLOGY

Students as future decision maker managers will be users of management accounting standards. In this way, the target of this course is train students to analyze and understand the informs on costs of products, sections, responsibility areas, etc.

Students at the end of this course will know the targets, basis of management accounting systems, characteristics of their design and different types of uses in planning and control.

The methodology of teaching-learning for applying has three components:

- 1) Learning development through magisterial lectures impart by teachers.
- 2) Technical skills development through exercises solving by the student, and explained and discussing in the classroom.
- 3) Solution and problems detection skill through the resolution of cases (exercises without unique or numerical solution)

ASSESSMENT SYSTEM

The final grade will be composed of:

3 mid-term exams (33.33% each)

IMPORTANT NOTE: The students will obtain a zero in Management Accounting if they register simultaneously in Management Accounting of any other degree (i.e. Business Administration, or Law

and Business Administration) in Carlos III .

% end-of-term-examination:	0
% of continuous assessment (assignments, laboratory, practicals...):	100
