

Academic Year: ( 2023 / 2024 )

Review date: 08-05-2023

Department assigned to the subject: Aerospace Engineering Department

Coordinating teacher: RAIMONDO , ANTONIO

Type: Compulsory ECTS Credits : 6.0

Year : 3 Semester : 2

**REQUIREMENTS (SUBJECTS THAT ARE ASSUMED TO BE KNOWN)**

Aerospace Materials I and II  
Engineering Graphics  
Thermal Engineering  
Aerospace Structures

**OBJECTIVES**

The goal of this course is that the student acquires a basic knowledge of aerospace design and manufacturing.

**DESCRIPTION OF CONTENTS: PROGRAMME**

1. Introduction to production.
2. Automation of Manufacturing Processes.
3. Geometrical and dimensional specification.
4. Metrology.
5. Metal casting processes.
6. Forming and shaping processes.
7. Machining processes.
8. Nontraditional manufacturing processes.
9. Manufacturing cost estimating.

**LEARNING ACTIVITIES AND METHODOLOGY**

Theory sessions.  
Problem sessions working individually and in groups.  
Lab-sessions.

**ASSESSMENT SYSTEM**

Final exam (60%)  
Continuous evaluation (40%)

The following requirements have to be met in order to pass the subject:

- 1) to have a MINIMUM mark of 4.0/10 in the final exam;
- 2) to have a minimum overall mark of 5.0/10 (weighing 60% the final exam mark and 40% the mark of the continuous evaluation).

<b>% end-of-term-examination:</b>	60
<b>% of continuous assessment (assignments, laboratory, practicals...):</b>	40
