uc3m | Universidad **Carlos III** de Madrid

Organizational knowledge management

**Academic Year: ( 2023 / 2024 )**                                     Review date: 21-04-2023

**Department assigned to the subject: Computer Science and Engineering Department**

**Coordinating teacher: SANCHEZ SEGURA, MARIA ISABEL**

**Type: Electives  ECTS Credits : 6.0**

**Year : 4 Semester :**

## REQUIREMENTS (SUBJECTS THAT ARE ASSUMED TO BE KNOWN)

Writing and Communication Skills
Information Skills
Introduction to Engineering Management

## OBJECTIVES

Learn and apply techniques to help identify digital transformation solutions aligned with the business and strategic objectives of organisations.

## DESCRIPTION OF CONTENTS: PROGRAMME

The detailed programme is as follows:

1- The context of the digital society. Current state of the business digitalization process.
2- The role of the computer engineer in the process of business digitalization.
3- The organizational knowledge governance  as a tool to avoid the risk of failure in the business digitalization process.
4- General concepts on organizational knowledge governance
5- Mechanisms and processes to support organizational knowledge governance
6- Knowledge elicitation techniques
7- Supporting technologies - business intelligence
8- Models for assessing the level of maturity of organizational knowledge governance
9- Concepts of intellectual capital
9- Knowledge asset valuation models
10- Application case in a real project.

## LEARNING ACTIVITIES AND METHODOLOGY

1)        Lectures: 1 ECTS, to get the specific cognitive competences of the subject
2)        Practices: 1 ECTS, to get the specific instrumental and generic competences, as well as the attitude competences of the subject, such as team work, ability to put in practice the acquired knowledge, ability to plan, analyse and synthetize. Practices also are intended to develop the attitude competencies. The practice consists on a practical example of a real problem of knowledge management
3)        Academic Work
a.        With professor assistance: 1,5 ECTS. This work consists on conducting a project where students have to develop a knowledge management solution for a fictional institution by focusing on a specific aspect of the course.
b.        Academic Work without professor assistance: 2 ECTS. Exercises and complementary readings. (
4)        Exam: 0,5 ECTS. The exam is intended to compliment the development of the instrumental and cognitive competencies.

## ASSESSMENT SYSTEM

Practices and exams are intended to encourage learning as well as to facilitate students' assessment.
The assessment system includes academic activities and practices evaluation using the following criteria:
¿        Exam (only if a student follows the continuous evaluation): 10%
¿        Practices: 90%
        o With professor assistance: 45%
        o Without professor assistance: 45%

| | |
|---|---|
| **% end-of-term-examination:** | 10 |
| **% of continuous assessment (assigments, laboratory, practicals…):** | 90 |
