LEARNING ACTIVITIES AND METHODOLOGY

Every week students will have two classes, one and a half theory lecture to provide knowledge skills, and one and a half practice class where students can acquire additional skills and attitudes through projects, exercises and case discussions, both individually and in groups.

The students will have teaching materials prepared specifically for the subject that can be complemented with the bibliography.

ASSESSMENT SYSTEM

The final grade of this subject is the average between the continuous assessment grade (the assessment of work developed during the course, 60%), and the grade of a final multiple-choice exam (40%). The continuous assessment grade is based on the following tasks:

- (i) Assignments, cases and/or mid-term exams (30% of the course grade).
- (ii) Marketing Research project (30% of the course grade): It is a teamwork made during the semester.

To pass this subject in the first call, you need to obtain a minimum grade of 5 points (out of 10) in the final exam. In the event of failing the subject, the student can retake the exam in the second call (in Spring).

RETAKE EXAMS

Students who fail the marketing subject in the ordinary assessment are entitled to a retake exam in June, this exam is taken on campus. Then, the grading is based on the general university regulations:

1. If the student did not follow the continuous evaluation: the final grade will be the one obtained in the retake exam.
2. If the student followed the continuous evaluation: the retake call grading will be analogous to the ordinary call. However, you will have the right to be qualified only with the grade obtained in the retake exam if this is more favorable.
