## DESCRIPTION OF CONTENTS: PROGRAMME

Preparation of an opinion or demand, in relation to a complex multidisciplinary assumption, to which a response will be given in writing and subsequent oral defense.

## LEARNING ACTIVITIES AND METHODOLOGY

The specialization of the tutor of the Final Master Project should coincide with the chosen of TFM modality. Given the final objective of the master's degree (to provide knowledge to enable students to practice law and prosecution), the TFM does not consist of addressing a legal aspect from a dogmatic perspective, but rather the preparation of an opinion or claim, in relation to a complex multidisciplinary case/supposition. For this reason, the role of the tutor is to guide the students in solving the case presented so that they can demonstrate practical knowledge, resolving any questions or doubts that arise about it.

## ASSESSMENT SYSTEM

The evaluation of the Final Master's Project will be carried out as follows:

- Quality in the defense of work before the Final Master's Work Court will mean the 100% of the note. The Court will value the work presented and the defense of it, the clarity of the ideas proposals and the conclusions reached and the capacity to respond to the questions that the Court wants to make.

The University uses the Turnitin Feedback Studio program within the Aula Global for the delivery of student work. This program compares the originality of the work delivered by each student with millions of electronic resources and detects those parts of the text that are copied and pasted. If the student has correctly made the appointment and the bibliographic reference of the documents he uses as a source, Turnitin will not mark it as plagiarism.
