DESCRIPTION OF CONTENTS: PROGRAMME

The content is divided into two major blocks.

FIRST BLOCK: Introduction to the firm's accounting documents. Analysis of the firm's situation by means of ratios

SECOND BLOCK: Introduction to basic financial instruments used by firms. Analysis of the financing costs of simple financial products

LEARNING ACTIVITIES AND METHODOLOGY

Teaching methodology:

- (1) Lectures where the specific course contents will be presented. Students will receive class notes and references that help complete and expand on the topics covered
- (2) Case studies provided by the instructor. These case studies are related to the content of the course and the specific capabilities the students are to develop
- (3) Computer classes where the students will learn to evaluate the financial position of a firm
- (4) Exercises solved by the student as self-evaluation of acquired knowledge, capabilities and skills
- (5) Common discussion and correction of exercises to ground knowledge and develop analysis and communication skills in a problem-solving environment. In addition, these discussions help the exchange of critical opinion between student and instructor, and amongst students

ASSESSMENT SYSTEM

% end-of-term-examination:	60
% of continuous assessment (assignments, laboratory, practicals...):	40

The term-based evaluation (continua) will be based on the following criteria:

- Mid-term exam: 20%

- Problems: 20%. From the start of the course, there will be problem sets. The instructor will grade and return them on a roughly bi-weekly basis.

- Final exam: 60%. The students acquired knowledge and skills will be evaluated in this way. The student must obtain at least 4 points in the final exam.
