LEARNING ACTIVITIES AND METHODOLOGY

The learning activities to be developed are aimed at stimulating and training students in the field of entrepreneurship. To achieve this goal the following resources teaching are proposed:

- Lectures: clear and systematic explanations of the contents of the different aspects of entrepreneurship.
- Practical case studies, exercises and applications of different stages of the business plan, where the students take an active role.
- Development of a business plan, in which students reflect their business idea, viability and implementation of the business project.

For the office hours¿ timetable, the regulation will be following.

ASSESSMENT SYSTEM

% end-of-term-examination:	60
% of continuous assessment (assignments, laboratory, practicals...):	40

The final exam will represent 60% of the final grade (a minimum grade of 4 in the exam is required in order to pass the course).

Development, resolution and discussion of case studies represent 10% of the final grade.

Business plan development represents 30% of the final grade.

In this course, students should not use artificial intelligence tools to carry out the work or exercises proposed by the faculty. In the event that the use of AI by the student gives rise to academic fraud by

% end-of-term-examination: 60

% of continuous assessment (assignments, laboratory, practicals...): 40

falsifying the results of an exam or work required to accredit academic performance, the Regulation of the University Carlos III of Madrid of partial development of the Law 3/2022, of February 24th, of University Coexistence, will be applied.
