

Electoral analysis

Academic Year: (2024 / 2025)

Review date: 16-04-2024

Department assigned to the subject: Social Sciences Department

Coordinating teacher: ORRIOLS GALVE, LLUIS

Type: Compulsory ECTS Credits : 6.0

Year : 3 Semester : 1

REQUIREMENTS (SUBJECTS THAT ARE ASSUMED TO BE KNOWN)

Political actors
Political behaviour

OBJECTIVES

The lectures pursue the following aims:

- The main theories and approaches to political representation.
- The different pieces of electoral systems from a theoretical and applied perspective ; The functioning and political effects of electoral systems.
- The main theories of electoral behavior and the factors that influence voting behavior.
- The relation between the determinants of electoral behavior and theories of democracy and representation.

DESCRIPTION OF CONTENTS: PROGRAMME

1. Democratic theory and political representation: elections as an instrument of political representation
2. The electoral systems: the principle of representation and elements, types of electoral systems and their effects
3. Models of electoral behavior analysis
4. Determinants of electoral behavior: socio-economic position, identities and values, contextual factors
5. Research methods in electoral behaviour

LEARNING ACTIVITIES AND METHODOLOGY

In lecture sessions the teacher will explain the main foundations of each unit. Some resources could be assigned to students in order to prepare the course. Work in seminar sessions will deal with comparing and analyzing cases suggested by the lecturer. The lecturer will suggest the resources and references to be used by the students prior to each seminar sesión. Those resources will be written both in Spanish and English.

ASSESSMENT SYSTEM

| | |
|---|----|
| % end-of-term-examination: | 60 |
| % of continuous assessment (assignments, laboratory, practicals...): | 40 |

Final exam: 60% of the final grade. The reading materials will be part of the content for the exam. Students will have to obtain at least a score of 5 in the final exam in order to pass the course.

Essays and case studies / research paper: 40% of the final grade. Students will have to obtain at least a score of 5 on average in the continuous assessments in order to pass the course.

In the extraordinary call, there will be an in-person written exam in the classroom. The evaluation system for this call adheres to the regulations governing the university's continuous assessment processes: The grade from the continuous assessment process will be retained if the student followed it. If they did not follow it, they have the right to an exam worth 100% of the total grade for the subject. If the student followed the continuous assessment, they will have the right to be graded in the extraordinary call considering only the grade obtained in the final exam when it is more favorable for
