

Academic Year: ( 2024 / 2025 )

Review date: 24-04-2024

Department assigned to the subject: Aerospace Engineering Department

Coordinating teacher: GURKAN , CEREN

Type: Compulsory ECTS Credits : 6.0

Year : 2 Semester : 2

**REQUIREMENTS (SUBJECTS THAT ARE ASSUMED TO BE KNOWN)**

Calculus I and II  
 Linear Algebra  
 Physics I and II  
 Programming  
 Advanced Mathematics

**OBJECTIVES**

Knowledge and understanding of numerical modelling applied to aerospace engineering problems

**DESCRIPTION OF CONTENTS: PROGRAMME**

1 Introduction to numerical modelling in aerospace engineering (structures, fluid mechanics, flight mechanics, optimization, etc)  
 2 Non-linear equations  
 3 Linear systems  
 4 Introduction to optimization  
 5 Interpolation  
 6 Curve fitting  
 7 Numerical differentiation  
 8 Numerical integration  
 9 Ordinary differential equations

**LEARNING ACTIVITIES AND METHODOLOGY**

Theory sessions.  
 Problem sessions working individually and in groups.  
 Lab-sessions with mathematical software.

**ASSESSMENT SYSTEM**

<b>% end-of-term-examination:</b>	60
<b>% of continuous assessment (assignments, laboratory, practicals...):</b>	40

End-of-term exam (60%)  
 Continuous evaluation (40%)

The continuous evaluation may include lab sessions, group projects, exams in the computer room, etc.

The end-of-term exam may consist of a written part and/or exercises in the computer room.

In order to pass the subject, three requirements need to be met:

- 1) to have a MINIMUM mark of 4.0/10 in the end-of-term exam;
- 2) to have a MINIMUM mark of 2.5/10 in each of the parts of the end-of-term exam;

<b>% end-of-term-examination:</b>	60
<b>% of continuous assessment (assignments, laboratory, practicals...):</b>	40

3) to have a MINIMUM overall mark of 5.0/10 (weighing 60% the end-of-term exam mark and 40% the mark of the continuous evaluation).

In the extraordinary call only, it is possible to pass the subject either by meeting the previous three requirements or by meeting the next two requirements:

- 1) to have a MINIMUM mark of 2.5/10 in each of the parts of the final exam;
- 2) to have a MINIMUM mark of 5.0/10 in the final exam.
